RAGING RIVER EXPLORATION INC.

Notes to the Financial Statements

(unaudited)

For the three months ended March 31, 2016 and 2015

(tabular amounts in thousands of dollars unless otherwise stated)

1. NATURE OF OPERATIONS

Raging River Exploration Inc. (“Raging River” or the “Company”) is a crude oil and natural gas exploration, development and production company based in Calgary, Alberta, Canada. The Company’s operations are focused in western Canada, primarily in southwest Saskatchewan. The Company is listed on the TSX under the symbol “RRX”.

The address of its registered office is suite 1700, 605-5th Avenue S.W., Calgary, Alberta T2P 3H5.

2. BASIS OF PREPARATION

Statement of Compliance

The interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 – “Interim Financial Reporting” using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). The interim financial statements should be read in conjunction with the Company’s audited annual financial statements for the year ended December 31, 2015.

These financial statements were approved and authorized for issue by the Company’s Board of Directors on May 9, 2016.

Basis of measurement

The interim financial statements have been prepared on the historical cost basis except for derivative financial instruments are measured at fair value.

3. SIGNIFICANT ACCOUNTING POLICIES

The Company’s accounting policies are described in Note 3 to the December 31, 2015 audited annual financial statements. Those accounting policies have been applied consistently to all periods presented in these interim financial statements.

Future accounting pronouncements

IFRS 15 Revenue from Contracts with Customers, provides clarification for recognizing revenue from contracts with customers and establishes a single revenue recognition and measurement framework that applies to contracts with customers. The new standard is effective for annual periods beginning on or after January 1, 2017, with early adoption permitted. The IASB has

proposed to defer the adoption date to January 2018. Management is currently assessing the potential impact of the adoption of IFRS 15 on the Company's financial statements.

IFRS 9 Financial Instruments, is intended to replace IAS 39 Financial Instruments: Recognition and Measurement and uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. For financial liabilities designated at fair value through profit or loss, a company can recognize the portion of the change in fair value related to the change in the company's own credit risk through other comprehensive income rather than profit or loss. The new standard also requires a single impairment method to be used, replacing the multiple impairment methods in IAS 39, and incorporates new hedge accounting requirements. The new standard is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. Management is currently assessing the potential impact of the adoption of IFRS 9 on the Company's financial statements.

IFRS 16 Leases, which replaces IAS 17 Leases was issued in January 2016. For lessees applying IFRS 16, a single recognition and measurement model for leases would apply, with required recognition of assets and liabilities for most leases. The standard will come into effect for annual periods beginning on or after January 1, 2019, with earlier adoption permitted if the entity is also applying IFRS 15 Revenue from Contracts with Customers. Management is currently assessing the potential impact of the adoption of IFRS 16 on the Company's financial statements.

4. BUSINESS COMBINATIONS

On February 11, 2015, the Company completed a property acquisition consisting of oil and gas assets in the southwest Saskatchewan region. The purchase price paid by Raging River was a total of \$35.5 million cash after closing adjustments. The acquisition had an effective date of January 1, 2015 and the purchase price was adjusted for the results of operations between the effective date and closing date of the transaction. The property acquisition was accounted for using the acquisition method and accounted for as follows:

Cost of acquisition:

	\$
Cash	35,512
<hr/>	
Total consideration	35,512
<hr/>	

Net assets at estimated fair values:

Property and equipment	34,160
Exploration and evaluation assets	2,376
Asset retirement obligations	(1,024)
<hr/>	
	35,512
<hr/>	

Had the acquisition closed on January 1, 2015, the Company estimates that its pro forma revenue and net earnings for the period would not have been significantly affected.

5. EXPLORATION AND EVALUATION (“E&E”) ASSETS

Reconciliation of movements in E&E assets:

	March 31, 2016	December 31, 2015
	\$	\$
Balance, beginning of year	51,101	34,771
Additions	392	3,165
Acquired- corporate acquisitions	-	16,028
Acquired- property acquisitions	-	6,591
Transfers to property and equipment (note 6)	(229)	(6,942)
Lease expiries	(2,197)	(2,512)
Balance, end of period	49,067	51,101

Lease expiries of \$2.2 million (year ended December 31, 2015 - \$2.5 million) for the three month period ended March 31, 2016, have been included in exploration and evaluation expense on the Company’s Statement of Comprehensive Earnings.

For the period ended March 31, 2016, there were no indicators of impairment identified. Accordingly, an impairment test was not required.

6. PROPERTY AND EQUIPMENT

Reconciliation of movements in property and equipment:

	Office Assets	Oil and Natural Gas Assets	Total
	\$	\$	\$
January 1, 2015	167	875,835	876,002
Additions	28	357,402	357,430
Transfers from exploration and evaluation assets (note 5)	-	6,942	6,942
Balance as at December 31, 2015	195	1,240,179	1,240,374
Additions	36	45,044	45,080
Transfers from exploration and evaluation assets (note 5)	-	229	229
Balance at March 31, 2016	231	1,285,452	1,285,683
Accumulated depletion and depreciation:			
January 1, 2015	(34)	(177,676)	(177,710)
Depletion and depreciation for the year	(32)	(112,870)	(112,902)
Balance at December 31, 2015	(66)	(290,546)	(290,612)
Depletion and depreciation for the period	(8)	(32,956)	(32,964)
Balance at March 31, 2016	(74)	(323,502)	(323,576)
Net book value:			
Balance at December 31, 2015	129	949,633	949,762
Balance at March 31, 2016	157	961,950	962,107

The Company capitalized \$648 thousand of general and administrative costs (year ended December 31, 2015 - \$2.7 million) and capitalized stock based compensation of \$542 thousand (year ended December 31, 2015 - \$2.0 million) for the three months ended March 31, 2016.

As at March 31, 2016, estimated future development costs of \$705.1 million (December 31, 2015 - \$746.8 million) associated with the development of the Company's proved and probable reserves have been included in the depletion calculation and estimated salvage values of \$24.5 million (December 31, 2015 - \$21.8 million) have been excluded from the depletion calculation.

As at March 31, 2016, there were no indicators of impairment identified. Accordingly, an impairment test was not required.

7. BANK DEBT

	March 31, 2016	December 31, 2015
Credit facility	\$ 25,231	\$ 108,897

As at March 31, 2016, the Company had a credit facility of \$300 million comprised of a \$20 million non-syndicated operating facility and a \$280 million syndicated extendible revolving facility. Repayments of principal are not required provided that the borrowings under the credit facility do not exceed the authorized borrowing amount and the Company is in compliance with all covenants, representations and warranties. As at March 31, 2016, the Company is in compliance with all covenants. Covenants include reporting requirements, permitted indebtedness, permitted dispositions, permitted hedging, permitted encumbrances and other standard business operating covenants; the Company is not subject to any financial covenants. The authorized borrowing amount is subject to interim reviews by the financial institutions. The next semi-annual review of the credit facility is scheduled on or before October 2016. Amounts borrowed under the credit facility bear interest at a floating rate based on the applicable Canadian prime rate or Banker's Acceptance rate plus between 1.00% and 3.50%, depending on the type of borrowing and the Company's debt to funds flow ratio.

The borrowings under the credit facility are available on a fully revolving basis for a period of 364 days until April 27, 2017, at which time the Company can request approval by the lenders for an extension for an additional 364 days or convert the outstanding indebtedness to a one-year term loan with full repayment due at April 28, 2018.

The credit facility is secured by a general security agreement and a first floating charge debenture in the amount of \$500 million covering all the Company's assets.

8. ASSET RETIREMENT OBLIGATIONS

The Company's asset retirement obligations are based on the Company's net ownership in wells and facilities and management's estimate of costs to abandon and reclaim those wells and facilities as well as an estimate of the future timing of these costs.

The Company has estimated the net present value of its total asset retirement obligations to be \$72.8 million at March 31, 2016 (December 31, 2015 - \$64.9 million) based on a total future liability of \$133.9 million (December 31, 2015 - \$123.7 million). Payments to settle asset retirement obligations occur over the operating lives of the underlying assets, estimated to be from 2 to 50 years, with the majority of costs to be incurred between 2030 and 2065. A risk free rate of 2 percent and an inflation rate of 2 percent was used to calculate the net present value of the asset retirement obligations.

	March 31, 2016	December 31, 2015
	\$	\$
Asset retirement obligation, beginning of year	64,910	42,460
Liabilities incurred	4,548	9,200
Liabilities acquired – corporate acquisitions	-	2,007
Liabilities acquired – property acquisitions	-	1,518
Liabilities settled	(51)	(103)
Revision to estimate	3,001	8,734
Accretion	349	1,094
Balance end of period	72,757	64,910

The Company recorded a revision to the estimated asset retirement obligations in the period due to discounting future cost estimates at a lower rate than in prior periods which resulted in an increase of \$3.0 million (December 31, 2015 - \$8.7 million).

9. SHARE CAPITAL

a) Authorized

Unlimited number of common shares
Unlimited number of preferred shares

b) Issued

Balance December 31, 2015	-	-
Exercised	-	-
Balance, March 31, 2016	-	-

c) Shares issued

On March 9, 2016, the Company completed a bought deal financing for gross proceeds of \$108.1 million and issued 12.5 million common shares at a price of \$8.65 per common share.

During the three months ended March 31, 2016, 167 thousand stock options were exercised for 90 thousand common shares on a cash-less basis and 3 thousand stock options were exercised for 3 thousand common shares for gross proceeds of \$9 thousand.

During the year ended December 31, 2015, 5.6 million stock options were exercised for 4.0 million common shares on a cash-less basis and 1.2 million stock options were exercised for 1.2 million common shares for proceeds of \$2.7 million.

During the year ended December 31, 2015, 1.1 million warrants were exercised for 837 thousand common shares on a cash-less basis and 1.5 million warrants were exercised for 1.5 million common shares for proceeds of \$3.0 million.

On February 4, 2015, the Company completed a bought deal financing for gross proceeds of \$88.3 million and issued 13.8 million common shares at a price of \$6.40 per common share.

d) Per share amounts

Basic per share amounts are calculated using the weighted average number of shares outstanding. The reconciling items between the basic and diluted average common shares outstanding are stock options.

	Three months ended March 31,	
	2016	2015
<i>(thousands)</i>		
Weighted average shares outstanding		
Basic	216,493	190,207
Diluted	216,493	194,986

As the Company incurred a net loss for the three months ended March 31, 2016, the basic and diluted weighted average shares are the same for the period.

10. STOCK BASED COMPENSATION

The Company accounts for its stock based compensation plan using the fair value method. Under this method compensation is expensed over the vesting period for the stock options, with a corresponding increase to contributed surplus.

The Company has implemented a stock option plan for directors, employees and service providers. Stock options granted under the stock option plan have a maximum term of 3.5 years to expiry. One third of the options granted will vest on each of the first, second and third anniversaries of the date of grant. At March 31, 2016, 9,882,128 options with a weighted average exercise price of \$8.24 were outstanding.

The following tables summarize the information about the share options:

	Three months ended March 31, 2016		Year ended December 31, 2015	
	Options	Weighted average exercise price	Options	Weighted average exercise price
Outstanding at beginning of year	9,629,836	\$8.18	13,119,738	\$5.08
Granted	592,000	\$8.55	4,020,500	\$8.63
Exercised	(170,708)	\$4.15	(6,825,190)	\$2.41
Forfeited	(169,000)	\$9.56	(685,212)	\$9.04
Outstanding at end of period	9,882,128	\$8.24	9,629,836	\$8.18
Options exercisable at period end	2,122,684	\$8.12	1,876,551	\$8.15

Exercise price	Options outstanding			Options exercisable	
	Number outstanding at March 31, 2016	Weighted average remaining contractual life (years)	Weighted average exercise price	Number exercisable at March 31, 2016	Weighted average exercise price
\$0.00 - \$4.00	1,249,956	0.5	\$3.50	325,882	\$3.38
\$4.01 - \$6.00	33,334	0.8	\$4.29	16,666	\$4.29
\$6.01 - \$8.00	981,339	2.0	\$6.92	317,326	\$6.78
\$8.01 - \$10.00	5,760,500	2.5	\$8.87	827,167	\$9.02
\$10.00 - \$11.06	1,856,999	1.6	\$10.27	635,643	\$10.28
Total	9,882,128	2.0	\$8.24	2,122,684	\$8.12

The fair market value of each option granted was estimated on the date of issue using the Black-Scholes option-pricing model with the following assumptions.

	March 31, 2016	December 31, 2015
Risk-free interest rate (%)	0.46 – 0.57	0.46 – 1.08
Expected life (years)	3.5	3.5
Expected volatility (%)	40	39 - 40
Dividend per share	nil	nil
Expected forfeiture rate (%)	4	3
Weighted average fair value at grant date (\$ per option)	2.55	2.55

b) Other cash flow information

	Three months ended March 31,	
	2016	2015
	\$	\$
Interest paid	670	200
Interest received	2	10
Current income tax paid	-	19,648

12. CAPITAL RISK MANAGEMENT

The Company's objectives when managing capital are to i) deploy capital to provide an appropriate return on investment to its shareholders; ii) maintain financial flexibility in order to preserve the Company's ability to meet financial obligations; and iii) maintain a capital structure that provides financial flexibility to execute strategic acquisitions.

The Company's strategy is designed to maintain a flexible capital structure consistent with the objectives as stated above and to respond to changes in economic conditions and the risk characteristics of the underlying petroleum and natural gas assets. Raging River considers its capital structure to include share capital, bank debt and working capital. In order to maintain or adjust its capital structure, the Company may from time to time issue new shares, seek debt financing and adjust its capital spending to manage current and projected debt levels.

In order to facilitate the management of the capital expenditures and net debt, the Company prepares annual budgets which are updated quarterly depending upon varying factors including current and forecast crude oil and natural gas prices, capital expenditures and general industry conditions. The annual and updated budgets are approved by the Board of Directors.

The Company evaluates its capital structure based on the non-GAAP measure of net debt to funds flow from operating activities and the current credit available to Raging River compared to its budgeted capital expenditures. The ratio is calculated as net debt, defined as debt and working capital excluding commodity contract assets or liabilities, divided by funds flow from operations. At March 31, 2016, Raging River has a net debt of \$44.6 million (December 31, 2015 - \$139.9 million) excluding the fair value of the commodity contracts. Net debt to funds flow provides a measure of the Company's ability to manage its debt levels under current operating conditions.

The Company's current borrowing capacity is based on the lenders' semi-annual review of the Company's oil and natural gas reserves. The Company is also subject to various covenants including reporting requirements, permitted indebtedness, permitted dispositions, permitted hedging, permitted encumbrances and other standard business operating covenants; the Company is not subject to any financial covenants. Compliance with these covenants is monitored on a regular basis and at March 31, 2016, the Company was in compliance with its covenants.

The Company's share capital is not subject to external restrictions. Raging River has not paid or declared any dividends. There were no changes to the Company's approach to capital management during the year.

13. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

The Company has exposure to credit risk, liquidity risk and market risk as a result of its use of financial instruments. This note presents information about Raging River's exposure to each of the above risks and the Company's objectives, policies and processes for measuring and managing these risks.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has implemented and monitors compliance with risk management policies.

Commodity price risk:

Due to the volatile nature of commodity prices, the Company is potentially exposed to adverse consequences if commodity prices decline. However, if commodity prices are hedged potential

upside gains may also be forfeited. The Company attempts to mitigate commodity price risk through the use of financial derivative sales contracts.

The following aggregated contracts were in place as of May 9, 2016:

2016

Q2

Crude oil	Differential	Apr 2016 – Jun 2016	1,500 bbls/d	Cdn \$4.65/bbl	WTI
Natural gas	Fixed	Apr 2016 – Jun 2016	2,500 GJs/d	Cdn \$2.39/GJ	AECO

Q3

Crude oil	Differential	Jul 2016 – Sept 2016	1,500 bbls/d	Cdn \$4.65/bbl	WTI
Natural gas	Fixed	Jul 2016 – Sept 2016	2,500 GJs/d	Cdn \$2.41/GJ	AECO

Q4

Crude oil	Differential	Oct 2016 – Dec 2016	1,500 bbls/d	Cdn \$4.65/bbl	WTI
Natural gas	Fixed	Oct 2016 – Dec 2016	2,500 GJs/d	Cdn \$2.45/GJ	AECO

The contracts in place during the three month period ended March 31, 2016, resulted in a realized gain of \$204 thousand (March 31, 2015 – gain of \$1.9 million) and an unrealized gain of \$257 thousand (March 31, 2015 – loss of \$1.0 million).

Foreign currency exchange risk:

The Company is exposed to foreign currency fluctuations as crude oil and natural gas prices received are referenced in U.S. dollar denominated prices. As of March 31, 2016, the Company did not have any foreign currency exchange contracts in place. The Company manages this exposure through its commodity price risk management.

Credit Risk:

Substantially all of the accounts receivable are with customers, joint interest partners and oil and gas marketers and are subject to normal industry credit risks. Receivables from customers and joint interest partners are generally collected within one to three months. The Company attempts to mitigate this risk by entering into transactions with long-standing and reputable organizations and by obtaining partner approval of significant capital expenditures and payment of cash advances wherever possible. Further risk exists with joint interest partners as disagreements occasionally arise and may increase the potential for non-collection. Currently, there is no indication that amounts are non-collectable thus, an allowance has not been set up. Receivables related to oil and gas marketers are normally collected on the 25th day of the month following production. To mitigate the risk on these receivables the Company will predominately establish relationships with large marketers who have strong credit ratings and solid reputations. Historically, the Company has not experienced any issues in collecting from its oil and gas marketers. In light of the current economic conditions, the Company continues to monitor its accounts receivable and its allowance for doubtful accounts. As at March 31, 2016, the Company's receivables consisted of \$16.4 million (December 31, 2015 - \$22 million) of receivables from oil and natural gas marketers, \$1.2 million (December 31, 2015 - \$1.7 million) from joint venture partners, \$2.9 million current income tax receivable and \$0.4 million (December

31, 2015 - \$1.4 million) of other trade receivables. As at March 31, 2016, the Company has no material receivables outstanding greater than 90 days.

Fair Value of financial instruments:

Raging River classifies the fair value of these transactions according to the following hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The Company's exposure under its financial instruments is limited to financial assets and liabilities, all of which are included in these financial statements. The fair values of the financial assets and liabilities included in the statement of financial position approximate their carrying amounts due to the short-term maturity of those instruments.

Raging River's commodity contracts are classified as level 2 within the fair value hierarchy as the contracts are transacted in active markets. The fair value of derivative financial instruments is determined by calculating the difference between the contracted price and published forward price curves as at the balance sheet date, and then multiplying this price differential by the contracted commodity volumes. The fair value of commodity contracts as at March 31, 2016 was an asset of \$472 thousand (December 31, 2015 – asset of \$215 thousand). If the Canadian dollar equivalent WTI price changes by \$1.00 per bbl, net earnings would increase (decrease) by \$1.1 million (December 31, 2015 – \$3.7 million).

Interest Rate Risk:

The Company is exposed to interest rate risk to the extent that bank debt is at a floating or short term rate of interest. The Company does not have any financial or interest rate contracts in place as of March 31, 2016.

As at March 31, 2016, a 1% change in interest rate on the bank debt would increase (decrease) net earnings by \$184 thousand (December 31, 2015 – \$795 thousand).

Liquidity Risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity through continuously monitoring cash flows from operating activities, review of actual capital expenditure program against budget, managing maturity profiles of financial assets and financial liabilities and managing its commodity price risk management program. These activities assure that the Company has sufficient funds to meet its financial obligations when due.

The following are the contractual maturities of financial liabilities as at March 31, 2016:

	<u>less than 1 year</u>	<u>greater than 1 year</u>
	\$	
Accounts payable	43,786	-
Bank debt	-	25,231
